Experience

Frontend Developer – [Novacura](#)

Jan 2024 – Present

- Developed customer-facing and internal AI agent interfaces end-to-end, from UX flows and visual design to frontend implementation.
- Built internal AI workflows that automated development work, streamlined platform integrations, and sped up delivery.
- Delivered frontend features and product improvements across the core platform, spanning interface design, implementation, and performance optimization.

Lead Developer & Designer – [Fastighetsakademin](#)

Dec 2025 – Apr 2026

- Led an end-to-end redesign, rebuild, and platform migration of the public-facing marketing website for a vocational education provider in Gothenburg.
- Migrated the website from WordPress to an Astro + Cloudflare stack, handling DNS migrations, frontend implementation, and visual design according to stakeholder requirements.
- Led SEO migration, analytics setup, and marketing analysis to grow traffic and inform digital strategy.
